Call for Papers

INTERNATIONAL SCIENTIFIC CONFERENCE

“HALAL EXCELLENCE AND CIRCULAR ECONOMY”

**Zagreb, Croatia
2-3 October 2023**

Dear Sir or Madam,

We would like to invite you to actively participate in the work of the international scientific conference “**Halal excellence and circular economy**”, which will be held as part of the Halal Business Forum, with your scientific and professional paper (report, study or debate) on 2nd and 3rd October 2023. The conference is jointly organised by the International University of Novi Pazar, Serbia, and Centre for Halal Quality Certification of the Islamic community in Croatia and will be held in Zagreb, Croatia.

The world population is continuously growing and has been reaching more than 8 billion people. This growing number causes pressure on how to supply all of them with essential goods. Available resources are exploited intensively and consumerism is causing extensive waste and pollution.

From an Islamic perspective, new solutions have to be developed according to the Qur’anic principle:

“Verily! We have made that which is on earth as an adornment for it, in order that We may test them (mankind) as to which of them are best in deeds.” (18:7)

This principle shows that Allah s.w.t. gives all men and women provision, power and resources in order to test individuals – there are clear rules on how to use them. Therefore, it is the obligation of every individual to respect the rights of the Creator and the created (humans, animals, plants etc.) by causing as little external effects as possible during production processes and usage of different products.

We use this opportunity to cordially invite you to participate actively and present your thoughts on how the principles of halal can be implemented in today’s economy in order to increase the welfare of people without violating the rights of others.
